

NEW
STAINLESS
STEEL
ROLLERS!

Do I need a Sancell Pool Roller?

- A Roller System makes using a Sancell Pool Cover easier and more convenient
- A roller provides easy storage for a Sancell Pool Cover
- Encourages use of the pool cover properly
- Helps prolong the life of the cover
- Enables you to enjoy the full benefits of a Sancell Pool Cover
- NEW Improved Stainless Steel design with improved aesthetic looks at the same time providing great functionality.

Compact, sleek finish and easy to use!

Sancell's new stainless steel roller is the easiest way to enjoy your Sancell Pool Cover. A roller from the Sancell range is quick and easy to use.

Our long-life rollers make the process of removing your pool cover from your pool a swift and simple operation. Our rollers are compact, portable, easy to use and easy to move: one person can manually reel the cover from the pool in a matter of seconds, without any hassles.

Our rollers can be customised to suit any size of pool cover, from small domestic pools to commercial Olympic pools, or any specialist order for motorisation or site-specific modifications. **There is one to suit every budget and need!**

Crank Roller
2 and 3 - Mobile

Hand Wheel Roller
2 and 3 - Mobile

Using a roller for storing a Sancell Pool Cover will also help prolong the life of the cover. Each roller additionally comes with a special UV resistant over cover to provide your pool cover with extra protection from the sun's damaging rays while it is on the roller.

Our Environmental Commitment

Sancell's commitment is to take a Holistic approach to our environmental policy, to focus not only on the product but the process in which it is manufactured.

We aim to minimise our impact on the environment through continuous improvement adopting strategies such as source reduction, use of recyclable and recycled materials, and encouraging re-use where possible without compromising our commitment to quality.

The Sancell Pool Cover range:

- ✓ is accredited with ISO 14001 environmental standards
- ✓ contains up to 15% post industrial recycled content
- ✓ is a 100% recyclable product

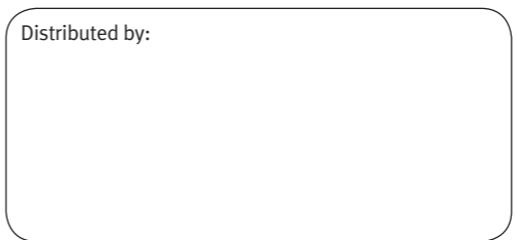

See our full range of environmentally friendly covers at: www.sancellenvirocovers.com.au

Drawing on more than 30 years of plastics manufacturing and welding experience, the Sancell range is designed to suit the harsh Australian conditions and climate.

Reduce water evaporation by up to 97%

In drought-affected urban and rural areas with stringent water restrictions, conserving water is a major concern. For an uncovered domestic pool in Melbourne, for example, evaporation can cause an annual water loss of 55,000 litres.

A properly fitted solar pool blanket or thermal pool cover can reduce this loss by 38,500 litres. That's 38,500 litres that won't need to be topped up each year. **That's saving a lot of water.**

Warm your pool by up to 8°

The range of Sancell Pool Covers will reduce your heat loss by up to 75% simply by reducing evaporative water loss. Regardless of your pool's heating system – electric, gas or solar – evaporating water uses tremendous amounts of energy. So for even a small amount of water loss through evaporation, your pool's temperature can drop significantly.

Regaining lost heat can add unnecessarily to your heating bills. By conserving your pool's heat with a Solar Pool Cover you'll significantly cut heating bills. **It's that simple.**

Reduce your heat loss by up to 75% = Savings in energy costs by up to 75%

By simply reducing your pool's water and chemical evaporation losses, a Sancell Pool Cover can cut down pool maintenance and heating costs, help conserve precious water resources and reduce production of greenhouse gases.

Reduce evaporative water loss by up to 97% therefore reducing chemical loss. And if there is no need to top up a pool's water level, there is no need to re-adjust your pool's chemical balance so frequently.

Australian made for greater choice and competitive prices

We are the only manufacturer to both make and convert pool cover materials in Australia. That means greater choice for you.

It allows us not to standardise our sizes, colours or accessory combinations. We recognise that every pool owner has different technical and aesthetics needs as well as budgetary limitations.

We are the only manufacturer to offer a full 3 year replacement warranty* on all covers 400um and above whilst still honouring the standard pro rata warranty period.

We can customise our products to suit each order and that means substantial savings to you because you don't have to buy material or accessories excess to your needs. **Simply, you save money with a customised order.**
